

Cuts through oxidation like butter!

Gutter Butter is a biodegradable, concentrated cleaner effective at removing oxidation from many surfaces including gutters, siding, metal roofs, and more!

Directions: Dilute as needed and apply with low-pressure mist. Brush if needed. Rinse thoroughly with water.

Usage Tips:

Prewet surface and surrounding areas prior to use, pay special attention to windows.

Do not allow product to dry on surface.

Always test inconspicuous area.

Use in temps above 50 degrees Fahrenheit.

Do not use on polished aluminum. Stucco/dryvit may change color, use with caution.

Always wear appropriate PPE - gloves and eye protection.

Dilution Suggestions:

Gutter Brightening 10:1 (17 oz/gal) Can start weaker in hot weather.

Vinyl Siding Restoration approx. 24 oz/gal start low and increase as needed. Do not exceed 50:50 ratio

Metal Roof Restoration 60:40 water:butter Do not exceed 50:50
