

RUST MAGIC

Removes Rust Stains From Concrete

Specifically Formulated to REMOVE WELL-WATER RUST STAINS FROM CONCRETE *Spray-on! Rinse-off! No Scrubbing Necessary!*

Our exclusive blend of high grade surfactants and buffering compounds make **Rust Magic** Rust Remover work like "Magic". Simply mix 1/2 to 1 pound of **Rust Magic** with water and apply to the surface with a pump up sprayer, chemical sprayer, or even downstream to the surface. Allow the product to dwell for several minutes while you sit back and watch, before your eyes the rust will "disappear like magic".

When the desired result is achieved, for best results as well as environmental considerations, it is recommended you neutralize the Ph of the compound with an alkaline based cleaner and rinse the surface. Specifically designed for use on concrete, brick, stucco, vinyl siding and more.

Directions for use:

Mix RM40 kit with water to make 30-50 gallons of liquid concentrate, RM10 kit will make 10 gallons of concentrate. Apply to the surface with a sprayer to remove rust stains. After the desired result is achieved lightly rinse with fresh clean water. This product may be diluted for different applications; actual washing experience is the only way to determine what is right for you.

**Not for use on Brick containing iron oxide pigments.
Run a test pattern in an inconspicuous area if you are not sure.**
