Yamada Air Diaphragm Pump 1/2" #5467

The answer to difficult product transfer problems. Air-drive allows freedom from electrical hazards or explosion-proof motor requirements. Choose from various wetted-parts materials to customize the pump to the chemical being pumped. Yamada's smaller pumps are often used for pumping car wash chemical for 'low-pressure' functions. The 1/2" pump is also ideal for rapidly pumping oil, soap, etc., from 55-gallon barrels. Larger pumps are used for high volume product transfer. Since all pumps are designed without rotating parts, they can also handle abrasive liquids without damage.
